SEEK SCAN

SIMPLE  
TEMPERATURE  
SCREENING FOR  
SAFER COMMUNITIES

## WHAT MAKES SEEK SCAN SPECIAL?

---

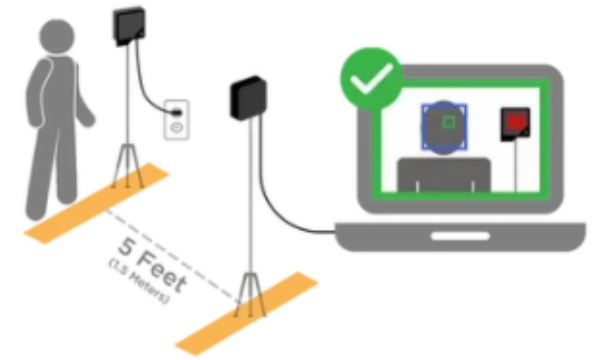

- Fast and accurate, with 32,000 points of measurement
- Does not require an operator, ultimately promoting social distancing
- Most affordable thermal scanner that meets FDA regulations
- Offers API integration

## SEEK SCAN IS THE IDEAL SOLUTION TO THE NEGATIVE EFFECTS THAT FLUCTUATING COVID-19 CASES HAVE ON BUSINESSES

---

## HOW IT WORKS

---

Seek Scan works by preventing fever induced individuals from entering a facility. Set up, the thermal/visible camera and fixed heat source stand across from each other. Standing in front of the camera, the individual's temperature is read, which then notifies the administrator's laptop. No training is required to use Seek Scan.
